DECORATIVE LAMINATES

**ANTI VIRAL
LAMINATES**

**ANTI BACTERIAL
LAMINATES**

ANTI-VIRAL & ANTI-BACTERIAL LAMINATES

In today's scenario where mask, sanitization & social distancing is mandatory for minimizing the probability of infection from COVID - 19, one still cannot rule out the chances of coming in contact with the virus at offices & homes. Understanding the gravity of the situation & our responsibility towards our clients, ASIS has launched Antiviro & Antibacterial Pre-laminated Boards.

Understanding the basic requirement, R&D team of ASIS along with the technical expert from Europe, started working on this project & after rigorous test & trial launched ASIS Antiviral & Antibacterial pre-laminated surfaces which are antimicrobial & antivirus made with Nanotechnology, in which nano-particles continuously release ions which is a self-defense mechanism for killing microbes (bacteria, viruses, fungus etc.), By electrostatic attraction these nanoparticles physically ruptures the cell wall & cytoplasmic membrane of the microbes & viruses that come in contact with ASIS Antiviral & Antibacterial surfaces. The nanoparticles are effective throughout the life of the product.

ASIS Antiviral & Antibacterial products have been tested by Biotech Testing Services, Mumbai for antimicrobial activity against JIS Z 2801 test method, result of which shows Microbial kill is 99.99%

FEATURES

**Antibacterial
Protection**

**Retards
Growth**

**Germ
Resistant**

**Safe for
Elderly & Children**

**Unmatched
Aesthetics**

**Maintenance
Free**

**Excellent
Durability**

Sizes Available : 1220 mm X 2440 mm

Thickness Available : 0.7 mm to 18 mm

More than 700 designs to choose from

APPLICATIONS

**Healthcare
Facilities**

**Diagnostic
Laboratories**

**Restaurants &
Cafe**

**Public
Transport**

Kitchen

Kindergarten

Partitions

Shelves

**Kids
Bedroom**

**Home
Furniture**

**Office
Furniture**

QUALITY CERTIFICATIONS
